

Amber & Jet Y6's

During this half term, Year 6 have been working extremely hard as part of SATs attack. Children have been trying to improve their scores each time they take a test. We are proud of the effort, resilience and enthusiasm that Year 6 are continuing to show.

Year 6 also enjoyed taking part in the World Book Day and Red Nose Day events. We had lots of fantastic costumes on show and we raised money for charity.

Year 6 attitude to learning has been outstanding this half term. Lots of children have already earned enough golden tickets to go on the cinema reward trip!

The hard work will continue over Easter with a two day Easter school on Thursday 20th and Friday 21st April.

For the last few weeks Abbeyfield Primary Academy has been playing on a website called Time Table Rockstars. Time Table Rockstars is used to improve times tables and it is a really good way to persuade children into learning their tables. Children are learning their tables really fast by competing with each other to improve their score. You can have "battles" against your friends, as well as children in other classes. You also can improve your rating on the chart by getting more questions right. When you get a question wrong, the website will then give you lots more of that question to help you get better. You can also play at home.

Everyone is really excited about improving their score – Time Tables Rock Stars is a brilliant way to have fun and learn!

By Sabah Ayub (Amber)

Thank you to all parents who have supported Year 6 so far this year.

Ms Abell and Mr Hope
